## **UNAUDITED SALES VOLUME IN JULY 2015**

The board of directors of Geely Automobile Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) is pleased to announce that the total sales volume of the Group for the month of July 2015 was 29,578 units, an increase of approximately 47% over the same period last year, but was down approximately 11% from June 2015. The Group’s exports volume was down around 35% year-on-year to 2,691 units in July 2015, due to the uncertain political and economic environment in some of our major export markets. Despite the sluggish automobile market in China recently, the Group’s sales in China in the month of July 2015 continued to maintain its strong momentum, with the total sales volume up around 68% year-on-year to 26,887 units. The overall sales volume in the first seven months of 2015 was 281,685 units, up about 36% from the same period last year and achieving 63% of the full year sales volume target of 450,000 units in 2015.

During the month of July 2015, the combined sales volume of “EC7” and “New Emgrand” was 11,373 units, a significant increase of about 107% from the same period last year. The aggregate sales volume of “GX7”, “SX7” and “GX9”, the Group’s Sport Utility Vehicles (SUVs), was 3,514 units in the month of July 2015, a decrease of about 12% from the corresponding period last year. The combined sales volume of “Vision” sedan and its new version was 5,579 units in the month of July 2015, more than fivefold increase when compared with the same period last year. The Group’s newly-launched “Geely GC9” (吉利博瑞), its latest B-segment sedan, achieved a sales volume of 3,201 units in July 2015, an increase of around 16% from previous month.

Please note that the sales volumes above are unaudited figures and have not been confirmed by the Company's auditors and may be subject to adjustment and final confirmation. Shareholders and potential investors are advised to read carefully the financial results of the Group when it is published.
